

FALCON® IV RF.146.14 HUBA

- > Maintain network integrity in congested and contested environments with resilient Wraith™ waveform
- > Easy-to use, integrate, and upgrade using provided programming tools and commercial connectors
- > Interoperable with fielded L3Harris Falcon IV® radios; allows for UAV control through fielded radios
- > Software Defined Radio capable of being field-upgraded and storing multiple waveforms
- > Designed to easily integrate into a wide variety of Group 1+ UAV platforms
